FROM SHERMAN.

NEW YORK, April 27.

The Herald's Raleigh correspondent says Johnson first proposed to surrender his army on the terms granted Lee, and he requested Sherman to end the proposition to Washington. Sherman replied that he was empowered to act, and it was unnecessary to send to Washington, thus causing a delay. An interview was had the next day when Johnston made inquiry as to what terms would be piedged to members of the Confederate Government. Sherman refused to recognize the authorsties of any such Government, but was pre-pared to treat with Johnson as an officer of the insurgent forces. A second meeting was had at which Breckinridge, recognized as a Major General and not as a rebel Sec retary of War, was present. It was at this conference that Sherman permitted the introduction of the of jectionable propositions, which it is said were dictated by Jeff. Davis.

Sperman heard of the Presidents assaysination before the negotiation, and commu-nicated the intelligence to the rebals, who

Johnston's army, probably 35000 strong, is better supplied with field guns and horses than any army the Confederacy ever had. Many of the cank and file, however not willing to await the formal surrender,

were leaving for their homes.

The World's Raleigh correspondant says a Commission, consisting of Ex Governo Graham, Ex Governor Swan, Surgeon Gon eral Warren and Colonel Burr, was sent by Governor Vance to see what arrangement could be made with Sherman on the part of State for a cessation of hostillities, and to ascertain what was the use of the State Government and officers. Under the new regime the Commission had the assent of General Hardee, to visit Sher-man, Johnston not being at hand. But Wade Hampton intercepted them and sent them back. Sherman told them he had no informs tion as to how the status of the State goverument was affected, that the question did not come within his province; that he did not consider North Carolina out of the tinion, as the question of secersion had not been submitted to the people; that he would respect every man that was not an original sionist, and treat him with every conside ation. Still be must march through the State in pursuit of Johnston, and the people must necessarily suffer by the march. Johnston's army was inferior to his, and every man slain in the future was an unnecessary sacrifice. Johnston, and not himself, would be responsible for this sacrides and the suffering entailed on the peo-ple of North Carolins. The civilized ounce Johnston's cours inhuman and illegitimate.

PHOR WASHINGTON.

WASHINGTON, April 27. The Times Washington special says the statement that President Johnson declines all precaution for his personal safety is erus. True, he has not given any special directions for guards to be place about his person, but he approves the pre cautions, taken by the authorities, which embrace the continuance upon duty of the late President's Body Guard, commanded by Lieutenant J. B. Jamison, of Ohio This company consists of one select man from each county in Ohio, and numb nearly one hundred men. A sufficient force of this guard is upon duty all the time and the viritor who calls upon the President, at his temporary mans ion, i confronted at once upon a pproaching the door by three or four soldiers who do not permit him to advance further until his name has been sent in and the order given to admit him

In the hall adjuning the Reception Room are also found soldiers of genteel deportment who remain about the entrance, within a few feet of Mr. Johnson also constantly surround the house upon the street and in the lot upon which the building stands. In fact every has ever been able to boast, reasonable precaution is taken to preven President.

NEWTONVILLE, Nov. 10, 1864. Du Lighthill.—Dear Sir: Allow me express my grateful thanks for the skill and kind attention rendered to my daugh-er, whose cars have been badly affected or many years, and for some months past as been nearly deprived of hearing. The has been nearly deprived of hearing. The less of this important sense is certainly a said deprivation, painfully embarrassing, and to a degree known only to these who have experienced it. If, therefore, there be a remedy for this great cvil, the cause of humanity obviously requires that it should be universally disseminated. I feel it my duty, therefore, and it affords me Grand Vocal and Instrumental much pleasure, to give my testimony to the sappy effects of your treatment and remeies. My daughter has suffered from deaf-ess since early childhood. The left ear RERR ISIDORE LEHMAN, Frime Baritone, from the Garman Opera as been badly diseased. The right ear, WILHELM GROSCURTE, Plantet and Musical Director also, for reveral years, was seriously affected, and the disease apparently increasing, threatening the entire loss of her hearing. Admission, 50 cents; B-se-ved Scats, 25 cm Si'm. Reserved scats can be had at Stalman Susic Store and at he do: ap28.206 It was with extreme difficulty that she suld participate in the convensa riends, and for two years has been deprived of this source of social enjoyment. Hap-pily my attention was directed to your adment, and I was induced to place 50 Colored persons will, and run circumsta s, be permitted to occupy ceats in any other po-pu of the bouse, save the Gallery. Admission if Bours open at 7. Curtain visce at 8. avor of a kind Providence has been sucstul. Her hearing, so far as I can judge, pears to be perfectly restored. Whether restoration is permanent is a question me alone can determine, but pro its are certainly very gratifying.

I am, dear sir, Truly and gratefully yours, B. T. WELCH, D. D.

om Rev. Fred. S. Jewell, Professor of the State Normal School, Albany, N. Y. DR LIGHTHILL-Dear Sir : Under date President Lincoln March 14 I sent you a careful statement f my case, my former treatment, my failto obtain relief in that direction, my sort to your treatment and its heneficial

I have been from the winter of the year 344, subject to violent periodical attacks catarro, marked by febrile symptoms, lent inflammation of the lining mem ranes of the cavities of the head med in the first stages by a watery discharge from the nose, subsequently becom-ing scrid and yellow, and towards the close Every one who desires to look upon ABRAHAN IASCOLN as he as peared IN LIFE, stoold no loss the opportunity now offered. of the attack purient and bloody. These attacks produced a most distressing species headache, occurring periodicall sy for a period varying from one to three weeks, sometimes so violent as to incapac-tate me for business, and confine me to ny b-a. At times the attendant inflamnation would extend to the teeth, producing toothache, or to the throat, occasi ng hoarseness and partial loss of voice ; nd twice within the is-t few years it has so affected the right eye as to confine me

for weeks to a darkened room.

I had tried medicines and applications of various kinds; suuffs and other catarrhal preparations of some half a d san kinds; applications to the head of campher, ginger nd hot tomentation of different kinds and in connection with these the usual metics and catharties employed to induce counter action. But nore of these had reduced any permanent improvement, nd in the few instances in which temper rai rerief was afforded, it was at the exense of so much strength as to leave me reatly exhausted. Under these circumances I was led, though with some rectance, from the supposed incurability of as disease, to make a trial of your treat ent. I found it soon beyond even my opes, reaching the disease as it had never seen reached before, and allevisting its emptoms to an extent which I had supred impossible. At the time when I ve you my former certificate, while I did ot feel assured of a semplete cure. I had btained a material relief which amply epaid me for my trial of you treatment, no which estissed me that that treatment was as effective as it was simple and philophical. A substantial escape from my id attacks of estarrh, for the almost unedented period of nearly half a year, ed that in spile of severe attacks ess, which would have formerly rendered uch an occurrence inevitable, was, to me, proof of an important success. It is now x months since I sent you that statement ad while it is a p'essant for me to appear thus constantly, and in this guise, I se public, it seems to me a matter of simde justice to yourself and to those who may be suffering as I was, to add that I on not only as fully satisfied as to the utility and efficacy of your treatment of caarh as I was six months ago, but I am ow of the belief that if the thing as a cure for CHRONIC CATARRIE, in caso a substantial cure has been efny caso a substantial cure has be ected.
